## TILLMAN AND M'LAURIN RESIGN

THIS ACTION THE RESULT OF A DEBATE IN GAFFNEY, S. C.

McLaurin Says Tillman Made a Bluff and He Called Him—The Two Now Before the People of South Carolina for Vindication.

Columbia, S. C., May 25.—Today at Gaffney, there was a spirited debate between United States Senators B. R. Tillman and John L. McLaurin. As a denouement, both of them have put their resignations in the hands of Governor McSweeney. They have resigned with the understanding that they are to go before the people in a joint canvass and the sentiment of the people is to be expressed in a vote in a Democratic primary to be held in November.

The arrangement is sensational, for Tillman was last summer elected for six years and McLaurin has yet two years. The result of the issue means that if Tillman is sustained, McLaurin's seat will be vacant; if McLaurin is successful he will succeed to Tillman's long term.

McLaurin has been invited to Gaffney, and friends of Tillman asked him to come, too. McLaurin accused Tillman of attacking him when Tillman is in a bomb-proof. The latter declared that he would resign and meet McLaurin on the stump. McLaurin agreed to the proposition. Senator Tillman later submitted a written proposition, which was accepted by Senator McLaurin, except that the latter wanted the campaign to be held in October and in November, instead of this summer. McLaurin stated that this was suggested on account of his poor health. There were several proposals submitted between the two. Senator McLaurin wanted the race to be confined to Senator Tillman and himself. The latter declared that he could not dictate to the State Democratic Committee when the primary should be held, or how many candidates there should be.

The resignations as finally forwarded to Governor McSweeney, were accompanied by conditions. It reads:

Sir: We hereby tender our resignations as senators for the state of South Carolina in the United States to take effect November 15th, next. Yours respectfully, etc.

Under the election methods in this state the State Democratic Executive Committee will arrange a campaign and the candidate will speak in each of the forty counties of the state. At the primary election the candidate will be voted for directly. The campaign will be pitched a year earlier than expected, but there are half a dozen candidates in the field. Each must specify for which term he is a candidate.

### SENATOR TILLMAN TALKS

Charlotte, N. C., May 25.—A special to the Observer from Gaffney, S. C., says: Senator Tillman was seen at the train after the resignation had been signed and was asked what would, in a word, be the effect of the resignation. He replied:

"It will mean that we are to have either two Republican senators or two Democrats."

"Well, will you and Senator McLaurin enter the primary before the people for re-election?"

"I am going before the people and there will be a number of candidates. I don't know what McLaurin will do, but I presume if his health will permit, that he will also run."

"Will you both run for the term which you have just vacated."

"He can run for either one. There is no restriction about that. The resignation is unconditional and he might as well run for my seat as his own."

"Are you entirely confident of being reelected to the term which you have just given up?"

"I see no reason why I should have fear as to the result. I have nothing personally against McLaurin. I merely want the people to decide the matter and vindicate me."

### STATEMENT FROM M'LAURIN

Atlanta, Ga., May 25.—A special to the Constitution from Gaffney, S. C., says: Senator McLaurin, when asked about the resignation, said:

"Tillman made a bluff and I called him. All I desire is a free, fair and open fight on the issues upon which we differ. I earnestly hope that all others will keep out of our race and run for the other senatorship, so that Tillman and I may meet as man to man and fight it out."

### Railway Changes.

A change in the schedule of the Southern went into effect yesterday, train No. 36, from the South arriving here at 12:43 instead of 12:23 as formerly. In addition to this change the Raleigh, Winston, and Sanford trains will leave at 12:45 instead of 12:25 as formerly.

It is better to follow a good example than to lead a bad one.

Love is a disease for which there is no vaccination.

## LONG JURY TAMPERED WITH.

SENSATIONAL DEVELOPMENT IN STATESVILLE COURT.

One of the Jurors Spends the Night With the Law Agent of the Southern—Affidavits From Several Statesville People Read.

For some time the case in the Statesville court against the Southern Railway, for the killing of young Ben Long at the University Station, last year, has been without special interest. Saturday, however, a sensation was created by the abrupt ending of the trial, on the charge that the jury had been tampered with. The story is told by the Statesville correspondent of the Charlotte Observer:

Statesville, May 25.—Mr. Platt D. Walker concluded his speech in the Long case this morning at 10 o'clock, when Mr. Bason addressed the court. The judge intimated that he should charge the jury to find the first issue, that the deceased was killed by the negligence of defendant, as alleged in the complaint. Yes, in favor of the plaintiff, and the second issue, Was deceased guilty of contributory negligence, No. The judge intimated the evening before that he would so instruct the jury also, and after hearing Capt. Price and Col. Henderson, counsel for the defendant, an adjournment was taken until after dinner.

At the convening of the court the judge stated from the bench that he had been informed by the plaintiff that one of the jurors, J. H. Brown, had spent the night with J. A. Gorham, the law agent of the Southern Railway, and that this being admitted by the defendant, as there was appearance of fraud, whether there was fraud or not, he would withdraw a juror and make a mistrial of the case, which was done. Whereupon, Mr. C. B. Watson, senior counsel for the plaintiff, moved for a rule to be served upon L. C. Caldwell, one of the counsel for the defendant, J. A. Gorham; the law agent of the Southern Railway, Company; J. H. Brown the juror; B. C. Deaton, another juror, and R. A. Ramsey, to show cause why, they should not be attached for contempt of court for tampering with the jury. He then read the affidavits of John F. Bowles, a citizen of Statesville; Geo. B. Nicholson, attorney at law; R. E. Aramfield, clerk of Hotel Iredell; C. S. Tomlin, a citizen of Statesville; Leon Clarke, a citizen of Statesville; J. A. Hartness, clerk of the court; W. D. Turner, attorney at law; S. L. Parks, a citizen of Statesville; Lee S. Overman, P. D. Walker and C. B. Watson, counsel for plaintiff; C. W. Boshamer and R. V. Brawley.

Upon the reading of the affidavits his honor issued the rule and signed the notice on the said L. C. Caldwell, J. A. Gorham, J. H. Brown, B. C. Deaton and R. A. Ramsey, to appear before him on Monday morning at 9 o'clock to show cause why they should not be attached for contempt as above stated, and recognized Ramsey, Gorham, Deaton and Brown in the sum of \$1000 for their appearance on Monday morning.

There was no denial of the fact that Gorham and Juror Brown had spent the night together in the same room in the third story of Hotel Iredell and that the lights were put out in the room immediately upon their entering it, and they remained there all night together.

### A Bad Engine.

As a coincidence of the accident today it might be mentioned that this engine No. 444 has had a series of accidents in the last month. First, it was in a smashup in the eastern part of the yard in which two or three box cars were damaged, and a quantity of meat scattered around. Second, was the accident costing the life of the fireman, Kirkman. Third, the engine ran into the rear of a freight train, and smashed the front cross bar on the engine. Fourth, this morning about 5 o'clock it ran into another engine on the yard, knocking both the other engine and the 444 off, and later killed the negro George Sutton. It is rapidly getting a bad name among the railway men.

## CONSTITUTION FOLLOWS FLAG.

IT IS SO DECIDED BY THE SUPREME COURT TO-DAY.

Decision Handed Down by Justice Brown Government Contention That Porto Rico Was Foreign Territory at Time Tariff Was Passed Is Correct.

By Wire to The Telegram.

Washington, May 27.—The United States supreme court this afternoon handed down its decision in the Porto Rico cases. The first decision was in the Delima case. The court held that in that case the government contention that Porto Rico was a foreign territory at the time the tariff was passed, is correct. Justice Brown read the decision. Its effect is that the constitution follows the flag where ever it waves.

### PERSONAL MENTION.

Rev. T. N. Ivey, of Raleigh, was in the city today.

Hon. Wescott Roberson, of High Point, spent today in the city.

Mr. B. H. Parker, of Raleigh spent last night in the city.

Prof. W. T. Whitsett, of Whitsett Institute, was in the city yesterday.

Mr. R. R. Waffs, of Durham, spent Saturday night in the city.

Mr. W. R. Leak, of Winston, spent last night in the city.

Miss Lillie Burnette, of Reidsville, will arrive tonight on a visit to Miss Mary Trotter, on Ashe street.

Mr. and Mrs. Walter Sergeant, of Richmond, Va., arrived Saturday night on a visit to relatives in the city.

Miss Mary Applewhite, one of the teachers in the Lindsay street school, left this afternoon for her home in Scotland Neck.

Miss Mamie Hearn, and Miss Heath, of Albemarle, who have been visiting Miss Bessie Grissom, left this morning on their return home.

Mrs. P. F. Jeffreys and daughter, Miss Pearl, returned from Richmond Sunday evening, where they had been on a visit to relatives.

Mr. J. M. Bailey, custodian of the Government building, has received instructions to receive bids for repainting and doing the other repair work necessary in the building.

### Two Runaways.

Dr. Beall's horse became frightened last night while on North Elm street and became entangled in the shafts. The negro boy, who was holding the animal, got out of the buggy to unhook it, when the horse bolted, coming down South Elm at a racing speed. The street was comparatively deserted, and the horse and buggy clung together until they reached the barn on the Doctor's lot, when the animal became freed. Nothing was damaged much, except the harness.

A runaway occurred on South Elm Saturday afternoon late but no considerable damage was done.

### FOOTPRINT IN COAL.

Miner's Discovery Refutes Deductions of Science.

Pittston, Pa., May 25.—A discovery which may revolutionize science and make this city the mecca of historic research has been made in the mines at this city. Tonight students of physical geography from every section of Luzern are scouring the city in hope of finding John Silinske, a Polish miner, who has in his possession a piece of coal bearing the imprint of a human foot. The lines are distinct and there is absolutely no doubt that it is genuine. Men who have seen the specimen say it will refute the verdict of science that the earth during the "coal age" was not inhabited.

John Silinske, while employed in the Pennsylvania mines, came across a strange strata of coal. On examination he found the imprint of what seemed to be a human foot. When his work was done, in silence he left the mines and for days spent his idle moments reading books on the subject. When approached with a price for his discovery he refused and became frightened and has not been seen for days.

It should be an easy matter to elevate the stage. Every company has its "props."

## Proposes to Return to Canteen.

Baltimore Sun.  
It is believed that Secretary Root will ask Congress at the next session to authorize the re-establishment of the "canteen" at army posts. If he will have these institutions called by some other name it may do away with some of the fierce opposition to them on the part of the temperance societies. Persons who are not familiar with them might infer from the name that they are simply drinking saloons, and doubtless many who have asked Congress to prohibit them did so under that impression. In point of fact the sale of wine and beer at the army canteen is only an incidental feature, although an important one. The canteen is a social club for the soldiers, a place where they can smoke their pipes, read the newspapers and play such games as are played at Young Men's Christian Association rooms. In addition to this it is a store where articles most needed by enlisted men, including varieties of food which are not served with rations, can be purchased at cost. The canteens had been a feature of army posts for some years when abolished by Congress at the last session. The enlisted men are understood to be in favor of them, the Secretary of War is said to favor their restoration and the army officers seem to agree with him almost as a whole, and the chaplains, or at least a good many of them, opposed the abolition.

## Poisoned by Absorption

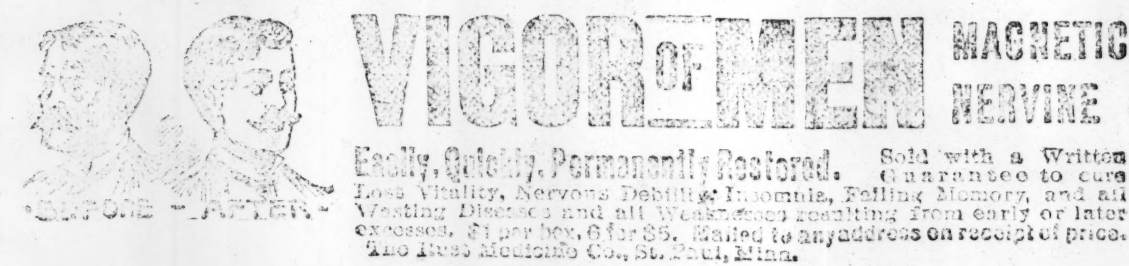

**POISON OAK, POISON IVY, BARBER'S ITCH, LEAD AND BRASS POISONING, ETC.**

Through the pores of the skin many poisons are absorbed into the blood, deranging the circulation and affecting the constitution as quickly and seriously as those generated within the system. Just under the skin are innumerable hair-like blood vessels, and connecting these with the skin are millions of small tubes or glands, through which the poison is conveyed to the blood system. During the spring and summer, while the skin is most active and the pores well open, we are much more liable to be affected by Poison Oak and Ivy and other dangerous plants. Workers in brass, copper, lead and zinc have their health impaired and the blood supply poisoned through the absorption of fine particles of these metals and the acids used in polishing and cleaning them. Inhaling the fumes of lead give painters that pallid, waxy appearance of the skin. Barber's Itch is another disease that reaches the blood through the skin, and is a most obstinate one when it becomes firmly fixed in the system. After the poison has reached the blood and been disseminated throughout the system it is too late to resort to local applications. In many cases the blood is affected simultaneously with the appearance of the rash or eruption on the skin, and all efforts should be directed to the purification and building up of the blood. Ugly eruptions and sores will continue to break out in spite of salves, washes, soaps or other external treatment.

S. S. S. is especially recommended for poisons of this character. So completely does it destroy the effects of the Oak and Ivy that there is no possibility of its reappearance, and it is equally as efficacious in brass or lead poisoning or Barber's Itch; building up and purifying the blood and driving out of the circulation impurities of every kind, and removing every blemish, sore or eruption from the skin. There is no substitute for S. S. S.; it is the only purely vegetable blood purifier known, and the safest and best in all constitutional or blood diseases.

Our Medical Consultation Department.—If you desire any special information or advice about your case, write our physicians, explaining your condition, and they will carefully consider what you have to say and you will receive a prompt reply. Our physicians have made a study of blood and skin diseases, and you can have the benefit of their experience and skill without any cost to you whatever. Don't hesitate to write fully about yourself, as nothing you say goes beyond our office. We have a very interesting book on Blood and Skin Diseases, which we will be glad to mail free.

In the first directory of the city of New York, published over 100 years ago, the only Vanderbilts whose names appeared were not members of the old commodore's family ancestors. They were Dutch, to be sure, and spelled their name "Van der Bilt." The most prominent among them was a truckman. At that time the ancestors of the present millionaire family were prosperous farmers on Staten Island, and their names did not belong in a New York directory.

One of the unexpected uses of the refrigerating machine is found in mining. At great depths or at comparatively shallow depths in some mines work on valuable veins of metal or coal has been abandoned because of the heat. But engineers declare that with the use of modern refrigerating apparatus to cool the air it will be possible to go several thousand feet lower in case a rich vein of precious metal or even coal warrants the additional expense.

## WINE OF CARDUI

## A SURE MEDICINE.

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

## McELEE'S Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps to away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

## WINE OF CARDUI

## Poor Indeed

are those weighed down by mental depression. Men rise in this world through buoyant nerve force. The loss of this force daily drags down to failure some of the world's brightest minds. Such a condition is commonly known as Nervous Debility. When you lose self-confidence and feel your strength, energy and nerve force are slipping away, it is high time you seek sensible aid. You prefer health and success to misery and failure.

## Serrine Pills

have no equal as a nerve restorer. A couple of boxes will dispel that heavy feeling; the unnatural weariness disappears and replaces languor with new force and vigor of body and brain. Six boxes will cure any ordinary case of nervous debility. If not, you get your money back. \$1.00 per box; 6 for \$5.00, mailed in plain package. Book free. PEAL MEDICINE CO., Cleveland, Ohio.

## A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham: of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying that it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1. Trial bottles free at C. E. Holton's drug store.

## CORPSE SINGS DOXOLOGY.

The Philadelphia Record tells of how a West Virginia "dead drunk" came to life:

Wheeling, West Virginia, has had a case to which the term "dead drunk" is peculiarly applicable. John Davis was picked up in the street, pronounced dead by two doctors and sat upon by a coroner's jury, which found that death was due to heart failure. The body had not been in an undertaker's rooms ten minutes before the corpse sat up and sang the Doxology, whereupon the late defunct wakened to court and fined \$5 for intoxication. Unless Mr. Davis shall reform he will stand a very good chance of being buried alive some day.

This is the first instance on record that a man has been adjudged dead by two doctors, sat upon by a coroner's jury, who made the same finding, and then compelled by the courts to pay a fine for intoxication.

## THE RECENT STRIKE.

The Baltimore News says: After a battle involving the killing of innocent lives and the loss of many thousands of dollars to the state and city, the street railway company of Albany has come to an agreement with its employees. It does not appear that there was anything in the way of reaching an agreement two weeks ago, except stubbornness on the part of the contending forces. The public lacked means of preventing the disastrous struggle. This strike and its results demonstrated anew that contests between corporations and their employees are not mere private matters. They concern the public closely and deeply and the public under such conditions should have some adequate means of protecting itself. The strike for seven days deprived about 200,000 persons of rapid-transit service, a thing which they had contracted for when they gave the street railway company its franchise, and which the had a right to expect. Under present conditions of living, the breaking down of rapid transit for a whole week is a most serious thing to the residents of any large city.

And not only were they discommoded by the stoppage of the rapid transit, but their lives and property were endangered by the rioting which almost invariably follows a strike.

## THE CHARTER GRANTED

## To the Winston and Wadesboro Railroad Company.

Winston Sentinel. There has been some apprehension that the authority of the Secretary of State to grant charters to railroad companies, as provided in the Code, had been appealed and that the construction of the Winston and Wadesboro railroad might thereby be delayed. It seems that all fear on this account has been removed. In reply to a telegram from president J. H. Battle to a telegram from President Battle, of the Chamber of Commerce, touching this point, Secretary of State Grimes wires that his charter for the Winston and Wadesboro railroad has been granted.

## COLORED LIGHT, MEASLES.

## Favorable Results Reported After Many Experiments.

Berlin, May 25.—The treatment of disease by the use of colored light, however much it may be ridiculed, is gaining favor here. The latest novelty is the cure of measles by it. Dr. Chatinier publishes in a small magazine the results of a number of experiments, all having favorable results. Patients with measles are kept in rooms lighted with a subdued red light, much like that in a photographer's dark-room. Chatinier uses red silk paper pasted on his window panes.

The patient receives no medicine, and is better in two or three days. Dr. Chatinier explains that the prevailing red light enables the inflamed skin to rest.

All other colors, especially the strong shades of violet, excite the skin. Dr. Chatinier was first attracted to his discovery by noticing that the peasant women in his district always wrapped up their measles-stricken children in red cloth.

## Fell Ten Stories

Milwaukee, Wis., special, 23d, to Chicago Record-Herald.

William Peyser, a young man engaged on the new Wells building as a painter, had an experience which, if he lives, he will not forget. When the whistle blew for noon Peyser, with others, was on the fourteenth story of the building. It has been customary for the workmen to slide down the first floor on the hoisting ropes, and Peyser took this route. He had descended about three stories when the rope began to unravel and he shot downward. The end of the rope on which was a big hook, caught, but Peyser had lost his grip long before and went whirling downward. He hit several times on his way down and struck the floor with a crash. It was expected that he was crushed to pieces, but he was carried over to one side and laid on a pile of blankets and he was found alive. He was taken to the hospital, where an examination showed that no bones were broken, though he was a mass of bruises from head to heels. The physicians held out hopes for his recovery and at last accounts the young man was doing well. Peyser as a boy had traveled all over the country. When the war was in progress he enlisted from his home in Brooklyn, N. Y., and was sent to San Francisco. The transport had left when he arrived, and when he was discharged Peyser worked his way back East and touched at Milwaukee on his way. He remained here, and when the Wells building was begun secured employment as a painter of the iron work.

## Jack O'Brien to Fight.

London, May 27.—Jack O'Brien, the Philadelphia middleweight, who is now in England, is matched to box George Chriss, the new English heavyweight champion, tonight. But little is known of Chriss, hence the following opinion of him by Charley Mitchell, ex-champion of England, will be interesting. Mitchell says: Chriss is a Northumbrian. He is, therefore, the first native-born heavy-weight champion England has possessed since 1885, when Jem Smith beat Jack Davis. Chriss outclasses either Smith or Davis by miles, and you may know he is a fighter from the bell.

"He is an upstanding, rugged chap, 29 years old. He has two hands, which he uses as does McCoy. He is five feet nine inches in height and weighs in at about 170 pounds. Every pound of Chriss is brawn."

## Aycock one of Leaders in South

Louisville, Ky., Post. Eastern newspapers are comparing the recent New York speech of Governor Aycock, of North Carolina, to the famous speech of Henry W. Grady to the Southern Society. Aycock is a young man of ability, and we may expect to hear from him in the future as one of the leaders of the South.

## A DISCOVERY.

Mr. James R. Coleman, a native of Pittsylvania county, Virginia, was afflicted with indigestion for twelve years; he could eat no solid food without great agony, and could not sleep at night. He was treated by eminent physicians who pronounced his case hopeless. As a last result he began the use of a preparation of his own as an experiment and found relief at once; in six weeks' time he was able to resume his farm work, a cured man. This was six years ago and he has had no return of the symptoms up to this time.

Mr. Coleman called the remedy "Coleman's Guarantee," and the results from its use among his friends were so marvelous that The Coleman Remedy Company was formed last year at Danville, Va., for the general sale of the preparation. "Coleman's Guarantee" is sold by druggists at 50c (large) bottles. Ask for booklet telling of many wonderful cures.

## NAME FOR KODOL.

The only instance on record when a postoffice has been named after a patent medicine, was last year, when in Wetzel county, W. Va., a new postoffice was established and named Kodol, after the famous Kodol Dyspepsia Cure, manufactured by E. C. DeWitt & Co., of Chicago. It had given such satisfactory results that the name was unanimously selected by the people for the new office and adopted by the department at Washington, D. C.

## POLICEMAN AT LAST ELECTED.

THE MEETING OF THE BOARD OF ALDERMEN SATURDAY NIGHT.

Alderman Joiner is Elected Mayor Pro Tem—Bonds of Officers Made Same as Last Year—A. G. Alexander to Carry a "Billy" the Next Two Years.

The Board of Aldermen met Saturday night at 8 o'clock in an adjourned session. All the members of the Board were present except Phipps.

Alderman Denny moved that a police officer be elected. Carried. Mr. Denny also stated that Mr. Lewis withdrew his name; that he appreciated the support by the members of the Board, but desired to withdraw his name.

Alderman Joyner and Sherwood were appointed tellers. The first ballot resulted as follows: Whittington 3; Alexander 3; Merritt 5.

The second ballot resulted in Whittington 3; Alexander 3; Merritt 5.

The third ballot resulted in Whittington 1; Alexander 5; Merritt 5.

The fourth ballot resulted in Whittington 2; Alexander 4; Merritt 5.

The fifth ballot resulted in Whittington 2; Alexander 4; Merritt 5.

The sixth ballot resulted in Whittington 2; Alexander 5; Merritt 4.

The seventh ballot resulted in Whittington 2; Alexander 5; Merritt 3; Lewis 1.

The eighth ballot resulted in Whittington 1; Alexander 5; Merritt 4; Knight 1.

Alderman Merrimon moved that the mayor and chief of police be instructed to elect a policeman.

Alderman Denny offered a substitute to the effect that the mayor order the Board to vote it out, if it took until 2 o'clock.

The ninth ballot resulted in Whittington 2; Alexander 6; Merritt 3. Six being a majority Alexander was declared elected. The oath of the office was then administered to him by Mayor Osborne.

Mr. Z. V. Taylor appeared before the Board and stated that he had talked with a member of the Water and Lights Committee, and that member said that while he was in favor of the contract and franchise, he felt that the city would be safer if a clause should be added into the franchise, stating that work should begin in six months and should proceed with reasonable celerity until completion, and Mr. Taylor stated that he was authorized to have such a clause inserted. Upon motion the additional clause was accepted by the Board.

Alderman Denny moved that the bids in for setting curbing, should be read. Carried and several bids were read.

Alderman Sergeant then moved that all bids for setting curbing be referred to the street committee. Carried.

Mr. C. G. Wright appeared before the Board and stated that the sidewalks near the Catholic church were in need of repairs.

Alderman Denny stated that a petition concerning the same had been presented to the Board some time ago, and it had been referred to the street committee, and that committee thought they would be able to reach it in a short time.

Alderman Glascock stated that the sidewalk in front of Centenary church was sadly in need of repairs.

Alderman Denny moved that a warrant be drawn in favor of Mr. Stewart to pay for his estimate of grading. Carried.

Alderman Bain moved that the Board go into the election of a cemetery keeper, but withdrew it. Alderman Elam moved that the matter be referred to the cemetery committee and let them formulate suitable plans, and make recommendations to the board. Carried.

Mr. F. N. Taylor appeared before the Board and asked that an appropriation of \$26 a month be voted to the Hook and Ladder Company to pay the salary of their driver.

Alderman ... moved that the Hook and Ladder Company be placed upon the same footing as the Southside Hose Company, who receive \$40 per month. Carried by a vote of 10 to 1.

Alderman Merrimon moved that the school committee be authorized to select the members of the Free Library Trustees, and designate the length of their terms. This committee retired and reported favorably the following gentlemen:

Mr. E. P. Wharton and Prof. G. A. Grimsley for the six year term; Rev. L. W. Crawford and Mr. J. N. Longest for the four year term; Mr. Howard Gardner and Mr. E. E. Bain for the two year term.

It was moved and carried that these

gentlemen be elected, and the clerk was instructed to cast the vote of the Board for them.

Alderman Merrimon moved that the bonds of the city officers be fixed at the same figures as last year. Carried.

Mr. C. H. Ireland and Mr. J. R. Mendenhall were re-elected members of the city board of education, and Mr. C. M. Vanstory was elected to fill out the unexpired term of Mr. W. E. Stone, resigned.

Alderman Joyner moved that a special committee of five, of which the mayor should be chairman, and consisting of the settling committee and two others, be appointed to settle with the city officers to date, and that the new system of bookkeeping be inaugurated, and that in the future a statement should be made of the condition of the city's affairs once a month. Carried.

Alderman Sergeant moved that all bills before the Board properly O. K'd be paid. Carried.

A petition to grade West Market street was referred to the street committee.

Alderman Joyner was elected mayor pro tem.

Board adjourned.

### At the A. and M.

Notwithstanding the threatening weather a large, intelligent and appreciative audience filled the spacious chapel at the A. & M. College yesterday afternoon to hear the Baccalaureate Sermon. President Dudley announced at the beginning of the services that notwithstanding the threatnings of typhoid fever and small pox that the week was ushering in the close of the most successful session in the history of the college.

The enrollment for the session is the largest of any previous year, while the students remaining in attendance to the close of the session was unusually large.

Rev. H. B. Delany, vice-president of St. Augustine School, Raleigh, N. C., preached the annual sermon. His theme was "strength." It was timely, interesting, and practical. Upon all sides were plain manifestations that the speaker of the occasion had won the attention, sympathy and hearts of his audience in making his appeals for strong men and women for God's service.

The music was an interesting feature of the program.

To night the annual sermon to the Y. M. C. A. and the Christian Endeavor Societies will be delivered by Dr. J. D. Chavis, President of Bennett College. The faculty will gladly welcome all who will be present.

### Three Temperance Notes.

Mr. W. T. Bundick, the distinguished temperance orator, will give an address at the First Presbyterian church, Friday, May 31, at 8 p. m. We bespeak a good audience to hear Mr. Bundick. The Macon, (Ga.) News says of him: "He is considered the ablest and most eloquent temperance lecturer now on the American platform."

The Loyal Temperance Legion will give and entertainment at Centenary church Thursday evening at 8 o'clock. It has been decided not to have an admission fee. All are invited.

There will be a special meeting of the W. C. T. U. Tuesday at 4 p. m. at Mrs. J. E. Cartland's. A full attendance is desired.

### Operation Successful.

Mrs. McGuire, of Lexington, stopped over in the city last evening on a visit to her mother, Mrs. P. F. Jeffreys. She was returning home from Richmond, where she had been to have an operation performed on her little daughter's eyes. The operation was very successful. Mr. McGuire came up from Lexington to meet them here Sunday at noon.

### WEATHER.

For North Carolina—Showers to night and probably Tuesday, winds mostly light North.

Greensboro—Highest temperature past twenty-four hours ending eight o'clock this morning 61, lowest 54, rainfall .69. Highest temperature on Saturday last 87, lowest Saturday night 58.

If ignorance is bliss 'tis folly to have blisters.

### DON'T SUFFER

## DEATH THROUGH NEGLIGENCE.

THE FINDING OF THE CORONER'S JURY THIS MORNING.

George Sutton, Colored, of Elon College, Killed by a Shifting Engine Near Davie Street Crossing—His Body Identified by a Woman He Came Here to See.

As shifting engine No. 444 was making up the Raleigh freight, this morning a few minutes after seven o'clock, near the Davie street crossing of the Southern road, it backed into a negro man, killing him instantly.

The crew consisted of engineer W. S. Adams, fireman, J. A. Albright, conductor, C. U. Holden, and two negro brakemen. Fireman Albright was not on the engine when the accident occurred but had gone to the round house to get his supplies. This of course left the engine shorthanded, and this fact may possibly have a bearing on the case, for the fireman occupies the left side of the cab, and it was on this side that the accident, from the testimony given, must have occurred.

Immediately after the discovery of the accident the dead man's body was carried on a stretcher to the old Cape Fear and Yadkin Valley depot, and Coroner J. P. Turner summoned. After making an examination he decided that an inquest was necessary, and the following jury was empaneled: T. M. Pickard, M. C. Workman, J. S. Chrismon, W. R. Land, E. M. Hendrix, and J. M. Wolfe.

On the person of the dead man was found \$5.30 in cash, two pocket knives, and a waterbury watch, still running, but nothing that would identify him. His body was picked up about fifty feet west of the Davie street crossing. One side of his head had been crushed in, besides other bruises where he had been dragged along the ground.

The jury then heard the testimony as follows:

George Emerson, being duly sworn, said he worked with the crew on engine No. 444, and at the time of the accident was on the caboose which was in front of the engine. That the man was struck by the tender of the engine, and that he did not see him until after he was dead.

Eli Turner being sworn said he was a brakeman on engine 444, that he did not see the deceased before he was hit, and heard no cry. Said the gate-keeper was on duty at the time of the accident.

C. U. Harden being duly sworn said he was a yard conductor in employ of the Southern Railway, that at the time of the accident was engaged in making up train No. 64 with engine No. 444. That it was two minutes after the accident occurred before he was aware of it. Was on the south side of the track; the gate-keeper was on duty and was first to make it known that a man had been killed.

At this stage a negro woman was admitted into the room who said she could identify the remains. Being sworn she said. My name is Annie Gant, and I came to Greensboro last April from Elon College. I work at Mrs. Low's boarding house. The deceased is George Sutton. He came from Elon College last night to see me. He is janitor there. I am sure it is he. He is not a drinking man.

W. S. Adams being duly sworn said: Am engineer on engine No. 444. Went on duty at 7 o'clock this morning. Know very little about the matter, heard no out cries and knew nothing of the matter until some one shouted to me.

J. A. Albright, being sworn said that he was fireman of engine No. 444, but was not on it when the accident occurred, but was getting supplies.

Henry Merritt was the last witness examined. Said he was the gate-keeper; had seen the deceased about ten minutes previous to the accident, when he had asked if the Raleigh train had gone. Heard no outcry, and saw no one; had his gates down.

The jury then went into private session, and made the following findings:

We, the undersigned jurors, having been summoned by Dr. J. P. Turner, coroner of Guilford county, and duly sworn, and after taking testimony in the case of the death of George Sutton, and after due consideration, do for our verdict say, that the deceased George Sutton came to his death by being struck by the back end of the tender of engine No. 444 of the Southern Railway, while shifting on or near the South Davie street crossing between the hours of seven and eight o'clock a. m. Monday, May 27th, 1901, in the city of Greensboro, North Carolina, by negligence of the said Southern Railway in not having a man on the rear end of the tender while backing, and also want of watchfulness by the gate-keeper at the South Davie street crossing of the Southern Railway. W. R. Land, E. M. Hendrix, J. M. Wolfe, T. M. Pickard, M. C. Workmen, John R. Chrismon, jurors.

## TOO TALL FOR SHIP'S BERTH.

United States Army Officer Astonishes the Captain of an Ocean Steamer.

The tallest passenger that ever sailed on the Red D liner Philadelphia arrived in New York from San Juan, Porto Rico, the other day. There were 33 cabin passengers aboard, but none attracted as much attention as Capt. John S. Battle, U. S. A., until recently a lieutenant in the Eleventh infantry. The young man's unusual height, broad shoulders and giant frame make him a tower of strength.

"Never sailed with such another," said Capt. Chambers, of the Philadelphia. "He was the tallest man I ever clapped eyes on. He was too long for the space between decks."

"Capt. Battle had to stoop as he walked the promenade deck. The awnings were not high enough to prevent the captain's head from colliding with frames and canvas; fact, Capt. Battle is more than seven feet tall. Had to procure special permission from the war department when he received his appointment to the military academy. He was bigger than the regulation size."

"Didn't know what to do about a bunk for the captain. Thought at first he was a lighthouse. He came aboard at San Juan, and asked me if I had a berth long enough. Told him that I once had a man almost as long as he, and that two berths had been thrown into one, making a continuous bed about eight feet long."

"Capt. Battle went below with me and looked at the double berth. Said he'd prefer to sleep on deck. So he had to take an ordinary berth, which was about three feet too short. For five nights the captain had to sleep with his legs hanging over the foot of the berth and curled around a stanchion."

## ODD CLAUSE IN A BEQUEST.

Rich Bostonian Excludes Negroes and Catholics from a Legacy.

In the will of David W. Hitchcock, a rich Bostonian, filed the other day, appears the following clause bearing upon a contingent bequest made to Wellesley female seminary to establish scholarships for worthy young women: "I exclude Roman Catholics and colored persons because I feel that the introduction into the said seminary of pupils who differ essentially in race and religion from the others may prevent the best interests thereof. Such girls to be selected as the beneficiaries of this fund by the officers of said seminary as would be unable to afford the expense of an education at said institution without such assistance, and I request said officers to limit the benefit of such assistance to such girls as appear to them to be bright and intelligent and likely to profit thereby."

If the trustees of the seminary refuse to accept the bequest the testator directs that the fund be given to the Museum of Fine Arts.

## HAS UNITED MANY COUPLES.

Rev. W. L. Meese Performs His 1,500th Marriage Ceremony at Chicago.

Rev. William Lawrence Meese, of Auburn, Ind., came to Chicago the other day, and united his grandson in marriage, the event making 1,500 weddings at which Rev. Mr. Meese has officiated. The bridegroom was William Lawrence Eaton and the bride Miss Esther Menardi Gauger, daughter of John A. Gauger, 4241 Drexel boulevard.

Mr. Meese, who has attained considerable celebrity through the many marriage ceremonies he has performed, had until the other day united in marriage 1,499 couples. When his grandson's engagement was announced it was thought to be fitting that the grandfather should officiate and round out his record to an even 1,500. Mr. Meese is the organizer of the Meese Matrimonial association, which was formed in 1896. Its membership is limited to the persons he has married, and annual reunions are held.

## SHIRTWAIST IS A UNIFORM.

Detroit Letter Carriers Will Wear Cool Attire of Dark Hue During Summer.

Detroit letter carriers will be comfortably clad in shirt waists this summer in place of the hot, uncomfortable coats. Postmaster Dickerson has been working for this change for some time, and in cooperation with the Letter Carriers' association has brought about the change. A dark gray pattern has been chosen as the most appropriate color for the waists. They will be of negligee pattern, with apertures in the rear and front for suspenders, so that these will not show over the shirt. A black necktie will be worn with them and gold buttons. The bands on straw hats will be made to match the color of the shirt. An order has already been placed for the goods, and it is expected that they will be ready by May 1.

Conscience is the phonograph of the soul.

## If a Woman

wants to put out a fire she doesn't heap on oil and wood. She throws on water, knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sex, she should not add fuel to the fire already burning her life away. She should not take worthless drugs and potions composed of harmful narcotics and opiates. They do not check the disease—they do not cure it—they simply add fuel to the fire.

Bradfield's Female Regulator should be taken by every woman or girl who has the slightest suspicion of any of the ailments which afflict women. They will simply be wasting time until they take it. The Regulator is a purifying, strengthening tonic, which gets at the roots of the disease and cures the cause. It does not drug the pain, it eradicates it. It stops falling of the womb, leucorrhea, inflammation and periodical suffering, irregular, scanty or painful menstruation; and by doing all this drives away the hundred and one aches and pains which drain health and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others which every woman should know about and use.

### FISHERIES OF CANADA.

The total number of fur seals taken by Canadian sealers during the year 1900 was 35,523.

The lobster plant alone is estimated to be worth \$1,334,180. It comprises 558 canneries, dispersed on the seaboard of the maritime provinces.

The sealing fleet last year numbered 37 vessels, an increase of 11 over the previous year, and representing an aggregate of 2,641 tons' register.

The salmon-preserving industry of British Columbia, comprising 69 canneries and representing a capital of \$1,380,000, gives employment to 18,977 hands.

No less than 79,863 men were occupied in 1900 in exploiting the waters of Canada, using 5,506,760 fathoms of nets and other fishing gear, representing a capital of \$10,000,000.

The total catch of fish in Canada for the year 1899, as reported by the fisheries department, amounted to \$21,891,706, being an increase of \$2,253,000 over the yield of the previous year.

### PHILOSOPHICAL SAYINGS.

(The following charming bits of wit and wisdom are from the pen of Nixon Waterman, writing in Good Cheer.)

A cheerful face is a perpetual sunrise.

All the world is a camera. Look pleasant, please.

Poverty and squalor may be as far apart as riches and goodness.

The way is never very long if measured with a smile and song.

It is as divine a thing to be a good friend as it is to have a good friend.

In talking speak your thought and then keep still until you've thought again.

If you are cheerful everything yields a profit; if you are gloomy all is loss.

Our truly sympathetic friends would not have us to be in trouble just to give them an opportunity to tell us how very sorry they are.

### POPULAR SCIENCE.

In 1811 only two sunspots were noticed. In 1871 114 were seen.

The heat of a common fire is 1,140 degrees; but it takes 3,479 degrees to melt iron.

The average expectation of life in England is now three years longer than in 1850.

On the equator the average temperature of the ocean surface is 78 degrees; but at 500 fathoms the water is only five degrees above freezing point.

At a recent meeting of the Paris academy of medicine Dr. Metchnikoff advanced the theory that appendicitis, especially in children, is due to intestinal worms, and yields easily to vermifuge treatment.

### RAIL AND TIE.

The weight of railway lines varies from 25 pounds to 75 pounds a yard.

There are 1,532 miles of railroad open to traffic in Roumania.

Swedish railway lines, the most expensive in the world, cost seven times as much to work as do the cheapest, those of Sweden.

The plan of the Central Pacific railway cut off 167 miles by crossing the lake involves a great engineering problem. The lake has to be bridged at a point where it is 22 miles wide, trestle work being necessary for the whole of the distance, spanning two miles across the rocky country point.

### (A NEW GERMAN MOVE.

Germany has recently appointed its first salaried consul to Central America.

The trade between Germany and Central America annually amounts to from \$7,140,000 to \$11,900,000.

German farms and plantations occupy more than 742,000 acres, on which are planted 20,000,000 coffee trees.

The Germans in Central America occupy a prominent position, both in a business and a social way. They are owners or managers of extensive commercial and agricultural enterprises, of important railroads and electrical plants. They are excellent physicians and teachers, and, in fact, are foremost in every profession, trade and occupation.

Those who are familiar with the thoroughness of German methods generally, with the wonderful progress this nation has been making during the past dozen years in almost every field of human activity, and know how alert it is to extend its trade into every quarter of the globe, need not be told that the recent reorganization of the German consular service in Central America is a step of no mean importance.

It has been officially stated by the German government that there are invested in Central America, in real estate, industrial enterprises and banking business, \$59,500,000; and the large German business houses which are quite numerous in Nicaragua, Guatemala and Costa Rica not only transact all the business between Germany and Central America, but also control most of the trade between the latter and England and California.

In Guatemala the Germans control almost one-half the entire coffee and sugar crops. It is in this state that Germany, too, takes foremost place in the foreign trade, and one would naturally expect that the first German consulate would open its headquarters in Guatemala; but Nicaragua was preferred, as the future canal across the isthmus makes that section of Central America most important to all the great powers in the world.

### LECTURE WINS MONEY.

Army Chaplain Makes Plea for Anglo-American Church in Philippines and Is Given \$20,000.

An army chaplain the other night delivered a \$20,000 lecture. He is Chaplain C. C. Pierce, who is on duty at Fort Monroe, Va., and recently returned from the Philippines, where he worked with great fidelity, and was in charge, in addition to other duties, of the identification of the dead. He established a system which has been of great advantage to the government. Since his return he has received a large number of invitations to lecture, but the serious illness of his wife and his conscientious regard for his duties at Fort Monroe have compelled him to decline such requests.

The war department authorities have been willing that he should lecture on the conditions in the Philippines. On Monday night he lectured on the army and the Philippines before the Church club in Philadelphia.

A day or two after he received a letter from a gentleman, who, with his wife, attended the lecture, and who stated that they proposed to give \$20,000 to be applied to the Anglo-American church which was organized by Chaplain Pierce at Manila more than two years ago and which is deserving of public support in this country.

### WHITE MAN TURNS BLACK.

An Indiana Farmer's Remarkable Case Mystifies the Most Expert Physicians.

Frank Keplinger, of Union township, Wells county, Ind., is puzzling the physicians. Mr. Keplinger is a farmer and up to two years ago was of fair complexion and in complete health. He then noticed that his skin, from crown to sole, was beginning to turn dark. His appetite failed, he lost half his weight. In alarm he consulted numerous specialists. Many remedies were used without effect and the color deepened until he is now almost as dark as a negro.

The specialists have failed to diagnose the case and have given him up to die. Mr. Keplinger is barely able to walk and considers his case hopeless. The case is said by the physicians to be without precedent.

### REMOVE STOMACH OF PATIENT

This Delicate Operation Again Successfully Performed at Hospital in Brooklyn.

Another of the rare operations in surgical science, the excision of the human stomach, was performed the other day at the German hospital in Brooklyn by the surgeons of the staff. The patient was Jacob Wichman, a German, 68 years old, who sought relief in Berlin and other cities of Europe.

The man was on the operating table from eight o'clock till 11 o'clock, and the operation was viewed by some of the most eminent physicians of Manhattan and Brooklyn. Wichman was under the influence of anesthetics. The patient will be fed liquid food which has been predigested.

## Sit up in bed.

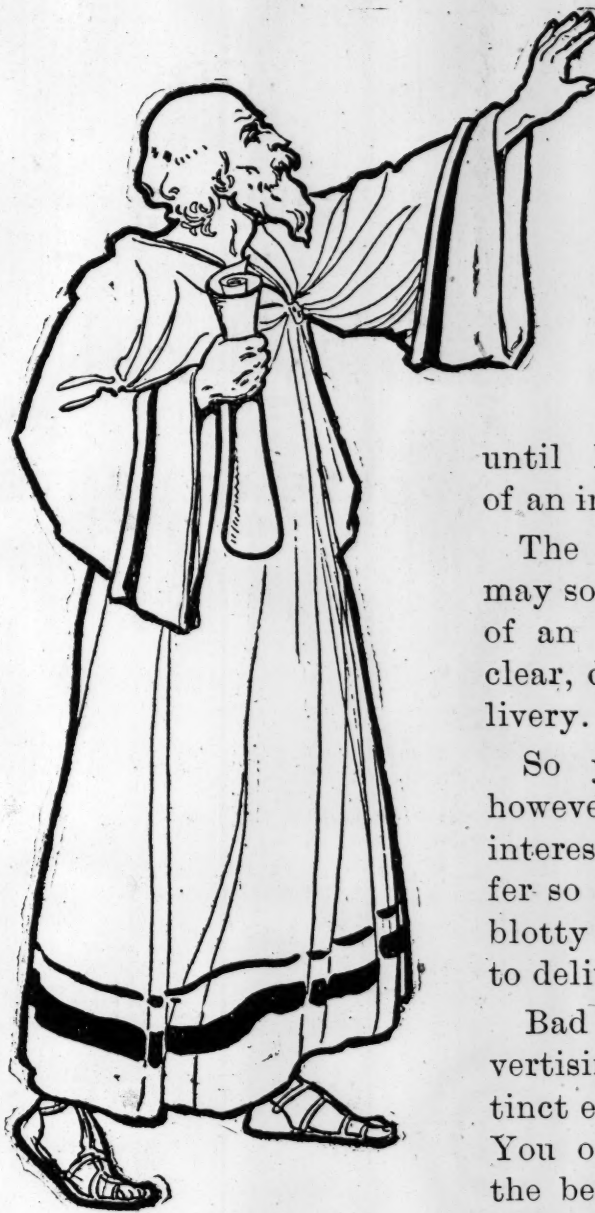

When it becomes necessary to sit up in bed to get your breath; when the least exertion such as walking, sweeping, singing, talking or going up and down stairs, causes shortness of breath, fluttering or palpitation; then it is time to do something to brace up and strengthen your failing heart. Take Dr. Miles' Heart Cure. It is best of all.

"I could not rest at night and often had to sit up in bed to breathe. The least exertion would make my heart palpitate dreadfully. Our doctor prescribed Dr. Miles' Heart Cure and it completely restored me to health."

## Could Not Speak

until he had cured himself of an impediment in his speech.

The finest flight of oratory may sound like the mumblings of an insane man, without a clear, distinct and forcible delivery.

So your printed message, however important, vital and interesting it may be, can suffer so from slipshod, careless, blotty printing that it will fail to deliver its message.

Bad printing is to your advertising what defective, indistinct enunciation is to an orator. You owe it to yourself to say the best that you have, and to say it the best that you can.

Our printing is appropriate to every purpose because there is no sort of printing which should not be done as well as it can be done.

## AMERICAN WEDS COUNTESS.

Colonel John M. Read's Bride Was Mlle. Alix De Foras, Daughter of Count De Foras.

Announcement was made at Albany, N. Y., the other day of the marriage of Col. John Meredith Read to Countess Alix De Foras. Mlle. De Foras is the daughter of Count Amedie De Foras of the Castle of Thuyset, in Savoy, France. Count De Foras was for many years the grand marshal of the court of Bulgaria and a great political power in that country. He resigned the position when the child of the prince was forced to become a member of the Greek church, as he represented the Catholic party. He afterward retired to the castle of Thuyset, where he devoted himself to his books until his death.

Col. Read is the son of Gen. John Meredith Read, adjutant general at the outbreak of the civil war, consul general of this country to France during the Franco-German war and commune and acting consul general for Germany; then minister to Greece, in which post he distinguished himself. His grandfather, John Meredith Read, LL. D., was chief justice and one of the most distinguished lawyer-jurists of Pennsylvania.

## MONUMENT TO GEN. HARRISON

Steps Taken at Indianapolis to Honor the Memory of the Late President.

A systematic movement was inaugurated at Indianapolis, Ind., the other day for honoring Benjamin Harrison with a public monument. The Commercial club, of which Gen. Harrison was a member, will act in the matter as a body, and it is understood that the board of trade and other civic bodies will join in the movement.

It is intended that the monument shall represent the sentiments of all the people of the state, and not the members of any political party. The first suggestion was for a statue to be placed near the soldiers' monument in Monument place, but the park is already crowded, and it is now proposed that it be erected in front of the new federal building, which will be begun in a short time. It is believed that congress will make an appropriation to aid in erecting the monument.

## NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary, which gives consumption its chance. And infection plants it.
